How You Cut Your Meat Expense in Half

TES, madam, it is quite possible. You can do it very easily. Let us tell you how. Buy the "fore-quarter" cuts in preference to the costly cuts. Although so much lower priced, these cuts from choice steer beef are just as nutritious, just as desirable and, properly cooked, just as savory and delicious as sirloin and porterhouse. And it is by using these less-sought-after cuts that you will reduce your meat bills to a mere fraction of what they would otherwise be. We urge you, in your own interest, to try this practical way of lowering the high cost of living, and offer as an inducement to begin right away
